## OBJECTIVE

Motivated front-end web developer with experience in creating responsive applications using **HTML, CSS, JavaScript and React**. Eager to leverage design and development expertise from Durham College to contribute to innovative projects.

## EDUCATION

### Website Development

Oshawa, ON

Durham College

Sept 2022 – April 2024

- Completed courses focused on building and designing interactive, responsive websites
- Collaborated on a capstone project involving the development of a fully functional web application that incorporated proper web accessibility and implementing search engine optimization (SEO)

### Bachelor of Science, Honours Biology

Waterloo, ON

University of Waterloo

Sept 2017 – 2021

## EXPERIENCE

### Web Developer Intern

Oshawa, ON

Durham College

April – May 2024

- Designed and developed a React-based webpage game with 8 different levels using hand drawn assets, exceeding management expectations
- Communicated effectively with supervisors to ensure all game requirements and deadlines were met

### Media Loans Technical Assistant

Oshawa, ON

Durham College

Nov 2022 – April 2024

- Made a positive impact on customer service through attentively listening to student needs and providing correct camera equipment

### Team Lead Covid Screener

Toronto, ON

Mount Sinai Hospital

Dec 2021 - July 2022

- Managed a team of 7 screeners, ensuring efficient operations by delegating tasks
- Addressed challenges that individuals were facing from hospital policies to ensure everyone's needs were met with the upmost respect and understanding

## PROJECTS

### Website redesign for Mayne Island Food Bank Society - Web developer

- Collaborated in a team environment and developed 3 pages of the food bank's website. Communicated efficiently with team leads to ensure all the client needs were met

### E-commerce site for Aggys Art – Web designer and developer

- Designed and developed a 4-page WordPress site with WooCommerce, displaying and selling original artworks

## SKILLS

**Web Technologies:** HTML, Cascading Style Sheets (CSS), JavaScript, PHP, WordPress, React, GSAP

**Design Tools:** Photoshop, Illustrator, XD, Animate, Figma, Framer

## INTERESTS

- traveling, sketching, running, digital art, crafting with resin
